

Our operating philosophy of combining quality products with the best in jobsite services has made us a worldwide industry leader.

Our goal is to continue leading by working together with our customers to successfully meet their drilling challenges.

### Baroid Industrial Drilling Products

*Performance Products and Comprehensive Services for Industrial Drilling Applications*

Since 1926, Baroid Fluid Services has been recognized as an industry leader supplying drilling fluids to meet a broad spectrum of drilling applications. Today, Baroid's product line has grown to include virtually all products used by the industrial driller.

Baroid Industrial Drilling Products (IDP), a product service line of Halliburton, is an international network of sales and service engineers, laboratory scientists and support personnel dedicated to servicing all facets of the non-oil well drilling industries. Since the 1950s, products and services have been expanded to include all types of drilling, grouting, plugging, abandonment and well rehabilitation and development products specifically engineered to optimize performance and end-user costs.

Backed by the strength of Halliburton's worldwide distribution network, extensive quality control from the mine site to the package, and a dedicated research and development laboratory, Baroid IDP is a manufacturer and supplier dedicated to surpassing customers' needs. The comprehensive Baroid IDP product line guarantees improved drilling performance and superior expertise in jobsite service.

### Product Lines

- Bentonite clays
- Attapulgitic clays for salt water drilling
- Dry and liquid polymers
- Performance additives, thinner/dispersants, defloculants
- Water impedance products
- Surfactants and foaming agents
- Grouting, sealing and hole plugging - systems and individual products
- Defoamers
- One-sack products to facilitate usage and minimize product costs
- Miscellaneous specialty and support products for lubrication, loss of circulation and well rehabilitation

### Support for drilling systems

- Cable tool
- Rotary, direct circulation
- Rotary, reverse circulation
- Rotary, air-foam
- Rotary, air hammer
- Auger
- Diamond coring
- Hydro-milling

### Drilling Industries and Markets Served by Baroid IDP

- Water well
- Mineral exploration
- Horizontal directional drilling (HDD)
- Tunneling
- Construction foundation/drilled shaft
- Pipe bursting
- Micro tunneling
- Auger boring
- Geotechnical investigations
- Geothermal ground source heat loop
- Environmental monitor wells
- Environmental horizontal drainage/recovery wells
- Shot hole drilling
- Water impedance and pond sealing
- Pipeline river crossing
- Hydro-milling

### Capabilities

- Dedicated research and development laboratories.
- Quality assured, regulatory acceptable products considered as standards of the industry. Manufactured to meet recognized specifications API, ASTM, NSF and UL; as well as Baroid IDP's own exacting standards.
- Leaders in drilling and grouting technology. Locally available technical service engineers averaging over 20 years of hands on experience in every facet of the drilling industry.
- Nationally recognized training center - also field-training seminars.
- Over 400 stocking distributor locations globally to serve your needs.
